Research Papers

A comparison of fracture mixing models, 1. A transfer function approach to mass transport modeling
J.A. Küpper, F.W. Schwartz and P.M. Steffler 1

A comparison of fracture mixing models, 2. Analysis of simulation trials
J.A. Küpper, F.W. Schwartz and P.M. Steffler 33

Characterization of a suspected terrestrial deep groundwater discharge area on the Canadian Precambrian Shield
M.I. Sheppard, D.H. Thibault, G.M. Milton, J.A.K. Reid, P.A. Smith and K. Stevens 59

Development of a correlation for aqueous–vapor phase mass transfer in porous media
A. Szatkowski, P.T. Imhoff and C.T. Miller 85

Summary of aldicarb monitoring and research programs in the U.S.A.
R.L. Jones and T.L. Estes 107

Stepwise pumping approach to improve free phase light hydrocarbon recovery from unconfined aquifers
G.S. Cooper, Jr., R.C. Peralta and J.J. Kaluarachchi 141

Fate of the herbicide glufosinate-ammonium in the sandy, low-organic-carbon aquifer at CFB Borden, Ontario, Canada
R.M. Allen-King, B.J. Butler and B. Reichert 161

Dispersion of a continuously injected, nonlinearly adsorbing solute in chemically or physically heterogeneous porous formations
W.J.P. Bosma and S.E.A.T.M. van der Zee 181

The effect of Langmuir sorption on pump-and-treat remediation of a stratified aquifer
S. Berglund 199

Optimised Muskingum–Cunge solution method for solute transport with equilibrium Freundlich reactions
D.A. Barry and K. Bajracharya 221

Moisture content effect on radon emanation in porous media
H. Sun and D.J. Furbish 239

Book Review

Toxic Properties of Pesticides, by N.P. Cheremisinoff and J.A. King — Z. Gerstl 257

Research Papers

An analytical solution for vertical transport of volatile chemicals in the vadose zone
C. Shan and D.B. Stephens 259

Application of gravity drainage to the recovery of residual LNAPL in homogeneous and lensed sand packs
L.J.J. Catalan and F.A.L. Dullien 279

Simulation of *1,3*-dichloropropene in topsoil with pseudo first-order kinetics
P. Lin, C.C.K. Liu, R.E. Green and R. Schneider 307

Discussion

A Discussion on Upconing of Freshwater–Seawater Interfaces — Comment by an Editor (G. de Marsily) 319

Discussion of "A density-dependent flow and transport analysis of the effects of groundwater development in a freshwater lens of limited areal extent: The Geneva area (Florida, U.S.A.) case study", by Panday et al. (1993)
L.H. Motz 321

Mathematical modeling of freshwater–saltwater systems: A response to discussion of "A density-dependent flow and transport analysis of the effects of groundwater development in a freshwater lens of limited areal extent: The Geneva area (Florida, U.S.A.) case study, by Panday et al. (1993)", by Motz (1995 in this issue)
S. Panday 327

Contribution to discussion of "A density-dependent flow and transport analysis of the effects of groundwater development in a freshwater lens of limited areal extent: the Geneva area (Florida, U.S.A.) case study, by Panday et al. (1993)"
G. Dagan 332

Contribution to discussion of "A density-dependent flow and transport analysis of the effects of groundwater development in a freshwater lens of limited areal extent: the Geneva area (Florida, U.S.A.) case study by Panday et al. (1993)"
R.J. Charbeneau 335

Discussion on Upconing of Freshwater–Seawater Interfaces: "The last word"
S. Panday 338
